PVC Covered Copper & Aluminium Conductor Colour Card

For lightning conductor applications where aesthetic impact is an important consideration, choose one of our PVC coverings from the colour swatches below.

Features and Benefits

- PVC covered options are available for flat tape and solid circular conductors in copper and aluminium.
- PVC colours are in accordance with BS 5252. (Green to BS 6746C).
- All PVC coverings are UV stabilised to prevent colour degradation which can be caused by exposure to sunlight.
- A selection of matching clips are available (details overleaf).
- Other colours are available - contact Stone Technical Services for details.

Conductor Fixings

Furse manufacture a range of easy to use fittings to complement the PVC covered conductors, for both flat tape and solid circular systems.

- Non-metallic screw fixed, weldable or adhesive DC tape clips for flat tape conductors.
- Screw fixed, weldable or adhesive push-in clips for solid circular conductors.

Other Conductors

Flat tape

Bare, LSOH covered, green and yellow PVC insulated, lead covered and tinned copper tape, hard drawn copper bar, flexible copper braid and bare aluminium tape.

Solid circular

Bare copper and aluminium solid circular.

Stranded

Bare and green and yellow PVC insulated stranded copper cable and bimetallic cable.
